
Process Design

CBI helps [convenors](#) and their stakeholders design collaborative processes that best fit their unique needs, contexts, and resources. We gather process design data from interviews, focus groups, and surveys, as well as drawing on our wealth of [experience](#). Due to the highly-tailored nature of our service, we are able to design processes that are unique, focused, structured, innovative, and useful. From public participation to stakeholder engagement and agreement-building, CBI helps organizations design a broad range of processes.

For more information about CBI [services](#) and expertise" >areas of expertise, please [contact us](#) online or call (617) 492-1414.
