

Raymark Superfund
Team Presentation

November 3, 2008

Institutional Controls--Helping to Preserve the Information

- Make Stratford Environmental Cleanup Website public
 - secure contractor to assist in training SHD staff to make changes to database as needed
 - add data as property changes (e.g. subdivisions)
 - Pilot database with RST community members

Institutional Controls--Helping to Preserve the Information

- Track sub-slab depressurization systems
 - check change of ownership since installation
 - record information on land records
 - enter addresses into SECW

Oversight Capacity

- Significant input in creation and implementation of Health & Safety Plan (HASP)
 - Involve RST members in reviewing air monitoring data from residential properties' excavation & work performed at OU1

Acquire Raybestos Ballfield Property

- Take legal steps to acquire ballfield, maintaining exemption from liability
- Present re-development options
 - DPW lot/DPW storage
 - Animal Control facility
